COMMITTEE REPORTS

911 – 911 Director Agens reported on their progress with the Text to 911 efforts. So far several carriers have been brought on line with a few still to go. They hope to roll it out to the special needs community first followed by a press announcement of some time. Dave hopes to have it wrapped up in June. They still have issues relating to tracking the caller especially related to phones that aren't currently under contract with a carrier. They will work to put together an internet protocol network routed together next. Several issues and challenges will remain to be solved.

MFR Medical Response related to the priority changes was discussed. Dave is working with Dr. Beyer to put together a new priority that will be a priority 2 with and MFR assist tied in.

Dave is also still in the planning process for a move of the New Buffalo Primary Site to Grand Beach. Should happen soon.

Dave also reported on the progress with the key up issue that plagued us during the VHF system shutdown earlier this year. Telrad is putting together a quote to provide new cards that will prevent this from occurring. He also said that GPS project continues to be a work in progress.

Caitlin passed on the appreciation of the Dispatch staff for the food trays during Telecommunication Appreciation week.

The EMS unified talk group policy was discussed. Dave shared two Q&A that were conducted recently where EMS and LE were assigned to calls where shared communication was important to the success of the incident. The first in Lincoln Twp on a Narcan administration and a second incident in Royalton with a possible suicidal

subject.. In both cases Dave felt that taking dispatch out of the communication flow proved beneficial and allowed responders to more effectively communicate.

Dave then asked that the Radio Committee working on putting together the communication grant consider looking closer at the newer technology available in addition to VHF equipment. A lengthy discussion ensued relating to future concerns and pros and cons of each side of equipment possibilities. The committee agreed to keep an open mind as they move forward with the grant. It remains a need to replace the Minitor 5 pagers as they can no longer be effectively serviced. Many of the options require a retooling of our entire communication system. More to follow.

Deputy Bush also added that when your 800 radios are updated there are additional channels available on the J and F zones. Additionally, those departments participating with MABAS are able to include that zone in their equipment as well. Please consider installing them at your next MPSCS template change.

Chief Lamb asked 911 to reinforce that important info should also go out over the radio in addition to Active911. During a recent incident in Niles Township the information was typed into 911 that the fire was out in an apartment but never relayed over the radio. Responders are not able to check updates while driving. Chief Koebel asked that Active911 be generated if possible on second alarm responses so that these units will have directions offered in the program to the incident. Currently they only put an Active911 out for the original department. It was felt that it would help allow unfamiliar responders with the address. They didn't think that this would be possible under current constraints of the system however they would look into it to verify.

DNR – None

Funeral Protocol – Berrien

EMERGENCY MANAGEMENT/LEPC – Deputy Bush let the group know the ICS 300-400 coming up is full. He is looking for interested instructors that are certified to teach ICS to participate with the training. Michigan is also looking into bringing a Command and General Staff training program to the State. Michigan MABAS has been tasked with providing credentialing for this new program. More info to come. They are finalizing the credentialing for the Comms Unit Leader Program. Ron has already qualified. He also reminded the group that the Updated Emergency Response Guides are in. You can also load it into your smart phone or computer.

PGA planning process is underway. Working with AHJ's of this event as well as the Lane Automotive event.

Palisades Exercise is complete. Just finishing up a few of the reporting issues. The County performed well. Tweaking plan for worker decon to include personnel staging component. You would respond to this location, stage, processed, Safety briefed, KI-ed, and Tasked and assigned from there as needed.

EMS-

MEDIC1 - Nothing to report.

SMCAS – Captain DeLaTorre discussed the planning going on for RED BUD!

MED Flight – Ken discussed their plan to present a LZ class at the Golf Course for PGA.

Chief Koebel reported that Medical Control will no longer allow O2 to be carried on board fire apparatus for Department use. Dr. Beyer was not in attendance to discuss the issue further.

SHERIFF- Away in Lansing on a Jail issue.

RED CROSS-None.

HAZ-MAT- None

BCFFA- Gerry discussed the lack of attendance at the Bertrand Meeting. Very limited participation especially from the South End of the County. In the end they didn't have a corium. The next meeting is at Bridgman. Hopefully attendance can rebound.

BCYF — Gerry presented his budget of \$800 for the same program as was presented last year. He is looking for volunteers to participate. Would like to have Bridgman's trailer however we must have at least 2 dedicated firefighters throughout the day to run the program on each of the 6 days of the fair. Looking for someone to coordinate this effort or the trailer will not be utilized.

TRAINING – Captain Burks reported that 17 of 23 students in the evening class graduated and passed the certification testing. June 7th will be the graduation ceremony again at the fairgrounds. Officers and department representatives are strongly encouraged to attend and support your graduates. Department uniforms are also encouraged. Corey also discussed retest options for those who came up short during the testing process. He and Tommy will meet to discuss the lessons learned this year with the hopes to make next year's class even better. Chief Stover added that he has been impressed with Tommy's progress with the High School Offering. Chief Davidson added the groups thanks to all involved with providing firefighter training in our County.

Berrien Springs Fire is hosting a Drivers Train the Trainer class on August 19-20. Dave Purchase is instructing. Anyone can take the class however must be Fire Instructor 1 to teach. Those departments with VFIS insurance are free with everyone else paying \$125. August 12 is the deadline to register and students are required for their own materials. Corey is also in the planning phases of running the Fire Instructor 1 program after in 2017.

A free Rope Rescue Certification program being offered at Cook. MUSAR is instructing. August 30-31 finishing up on September 1st and 2nd. The class will be a full day on all days. Contact Doug at DADEBEST@aep.com.

Baroda will also be presenting Fire Officer Strategies and Tactics after the 1st of the year.

The Training Committee is entertaining the idea of having a table at the fair to provide for recruitment opportunities. They could provide literature, contact info, and applications for each department.

MABAS-

Larry has put together an out of Division Box Card for participating departments to review. We tried to only pull limited resources from each department. With that he knows there might be adjustments. Chiefs with changes, like on any MABAS Card, should contact him with the changes.

New MABAS Statewide Agreement discussed and handed out by Plans Coordinator Frank DeLaTorre. Need to get them signed and back by the next meeting so representatives can get them to the County Clerk and MABAS Board. Existing Members do not need a formal resolution as this is just an update. We leave it up to each unit of government's process to sign the agreement. A direction sheet as well as a list of the

changes to the original agreement were discussed. This update relates to special team use with no changes to normal fire mutual aid. Chief Lamb will forward out copies of the updated agreement to participant departments.

OLD BUSINESS -. Chief Koebel discussed the VWatch program snag with providing the units. There are photos of the training trailer on the website.

NEW BUSINESS – Doug DeBest requested that we include MiTRT5 updates during the Chiefs agenda. Chief Davidson will add this group to the agenda.

Next meeting 6-15-16 @ 1830

Cook Nuclear Power Plant's Fire Brigade

The Cook Nuclear Power Plant's Fire Brigade is going to be hosting the following firefighter training course that is Michigan – Office of Fire Fighters Training (OFFT) certified. Each firefighter that attends and completes the course will be issued a certificate from the OFFT. This course will take place at the Lake Township Fire Station – Training Room, 3169 Shawnee Road, Bridgman, MI 49106.

Rope Rescue Operations

This 40-hour program exceeds the capabilities required in NFPA 1670 for an Operations level team.

This is a hands-on, practical course specifically designed to address the needs of fire and rescue agencies which may be called upon to perform rope based rescues from above or below grade including the rescue of workers suspended on fall arrest as well as in support of operations at confined space, trench and structural collapse rescue incidents.

While the emphasis is on working as a team to complete the rescues, there are numerous individual skills are critical to that success. Throughout the program there is a strong emphasis on basic skills and safety. These fundamentals are important, not just for class, but as a foundation for all future rope rescue training. Each of the techniques presented has been tested and proven; and some will be proven again as a part of the program, especially in the belay workshop. After successfully completing the course, participants are able to work safely at rope rescue incidents, operate the commonly used systems (lower, raise and belay) and be familiar with the techniques used for the typical rope rescue incidents.

Course Content: NFPA & OSHA Standards, Standards Operating Guidelines, Safety, PPE, Hardware, Software, Knots, Anchoring, Rappelling, Self-Rescue, Belays, Lowering Systems, Mechanical Advantages, Ladder Systems, Low Angle Litter use, Roof-based pick-offs, Ground-based pick-offs, Fall Protection Patient Packaging, and Rescue Scenarios.

This course will meet on the following dates from 7:00am – 5:00pm:

- **Tuesday, Aug. 30th**
- **Wednesday, Aug. 31st**
- **Thursday, Sept. 1st**
- **Friday, Sept. 2nd**

EXPLANATION OF CHANGES TO MICHIGAN-MABAS (MI-MABAS) AGREEMENT

The purpose of the new MI-MABAS Agreement is to add a provision under Section 8 for cost recovery regarding Special Operations Teams. The provision now states that a MI-MABAS Special Operations Teams may collect full cost recovery (the first 8 hours may not be for free). This provision allows the respective MI-MABAS Special Operations Teams the ability to invoice for full cost recovery for any response. Due to the expensive nature of creating and sustaining a Special Operations Team (advanced training, specialized equipment, increased number of exercises), it has been recognized that it may be cost prohibitive to allow the first 8 hours of a response to be at no cost.

The specific provisions of the Agreement that have been changed since the 1st Addendum are:

- 1) A sentence has been added to the opening paragraph that reads, “**This Agreement supersedes any and all prior Agreements and amendments to the Michigan Mutual Aid Box Alarm System Association Agreement.**”
- 2) A new definition has been added under Section II (Definition M) that reads, “**M. “Special Operations Teams” means MI-MABAS recognized teams of personnel with the requisite training and skill for Hazardous Materials Response, Technical Rescue Response (including Strike Teams and Michigan Task Force 1) and Incident Management Teams.**”
- 3) Section 8 has been modified as follows: Changes are in red:

SECTION EIGHT

Compensation for Aid

Equipment, personnel, and/or services provided pursuant to this Agreement, absent a state or federal declaration of emergency or disaster, **excluding resources for Special Operations Teams**, shall be at no charge to the Requesting Party for the first eight hours. Any expenses recoverable from third parties shall be equitably distributed among Responding Parties. **Requests for a response from any MI-MABAS Special Operations Team shall require full and complete reimbursement to the responding Team for all expenses, including but not limited to, expenses for equipment, personnel, management and administration and all other services provided at an incident. The Executive Board shall adopt fee schedules that establish rates for Special Operations Team responses.** Nothing herein shall operate to bar any recovery of funds from any state or federal agency under any existing statutes. The Parties reserve the right to waive any charges to a Requesting Party.

SECTION ONE

Purpose

It is recognized and acknowledged that in certain situations, such as natural disasters and man-made catastrophes, no political subdivision possesses all the necessary resources to cope with every possible Emergency, Disaster or Serious Threat to Public Safety, and an effective, efficient response can be best achieved by leveraging collective resources from other political subdivisions.
