

# Training Bulletin

Berrien County Sheriff's Office  
Emergency Management &  
Homeland Security Division

2/23/2017

Bulletin Number TB17-3

## **\*\*NO COST\*\* Air Monitoring for Hazardous Materials EPA 165.4:**

This course is being hosted by the Berrien County Hazardous Materials/RRTN Team. This three (3)-day course provides participants with the knowledge and skills necessary to monitor and sample for airborne hazardous substances. A variety of instruments will be used during the course presentation and practical exercises, including combustible gas indicators, oxygen sensors, colorimetric tubes, photo ionization detectors, flame ionization detectors, and sampling pumps. Topics to be covered include monitoring programs, monitoring and sampling techniques, equipment selection, equipment calibration and use, exposure guidelines, air dispersion modeling, and safety planning.
