

# Basic Strategies for Farm Emergencies

Basic Strategies for dealing with an assortment of (20) different farm related emergencies. This training will give participants an overview of local farm emergencies. This awareness level presentation will teach emergency responders how to recognize and initially manage (size-up) various hazards that they will encounter, while arriving at the scene of an agricultural emergency and how to effectively preplan for farm related emergencies in their communities.

- Conventional Silo Fires
- Oxygen Limited Silo Fires
- Grain Engulfment
- Anhydrous Ammonia
- Crush Injury
- Fluid Injection
- Ethanol Fires
- Grain Dust Explosions
- Confined Spaces
- Elevator Fires
- Grain Entrapments
- Vehicle Rollovers
- Ground Wells
- Electrical Emergencies
- Grain Dryer Fires
- Silo Gases
- Large Animals
- Manure Storage
- Farm Chemicals
- Propane

Emergency Services Rescue Training, in conjunction with MIOSHA, created single page references for 20 different agricultural specific situations. Personnel can find the picture on the cover that applies to the problem they have responded to, turn to the appropriate page in the guide, and see some basic safety and operational procedures to keep in mind as they conduct their response. This program will go more in depth regarding all 20 of the subjects as they pertain to Emergency First Responders.

## April 23<sup>rd</sup>, from 7:00 – 10:00pm

The session will be held at the Baroda Fire Station – 9081 First Street, Baroda, MI 49101

This training session has been approved for 3 EMS CEs in the Operations category.

This training is being offer at no cost to participants.
