Description: This course provides training on and resources for personnel who require advanced application of the Incident Command System (ICS). This course expands upon information covered in the ICS-100 and ICS-200 courses. The course objectives are to describe how the National Incident Management System (NIMS) Command and Management component supports the management of expanding incidents and describe the Incident/Event Management process for supervisors and expanding incidents as prescribed by the ICS. Also covered is the implementation of the Incident Management process on a simulated Type 3 incident and development of an Incident Action Plan for a simulated incident.

NOTE: The maximum class size is 28.

Target Audience: Workers who may assume a supervisory role in expanding incidents or Type 3 incidents.

Prerequisites:

- Must Complete ICS-100, ICS-200, IS-700, and IS-800
- All prerequisite certificates must be uploaded to your MI-TRAIN account in advance of the course so we can verify them. If the prerequisite certificates are not available you will be withdrawn from the course.

Cost

- \$0.00 Tuition
- Travel, lodging, and meals are the responsibility of the student and/or their agency.
- OT, if incurred, is also the responsibility of the student's employer.
