Police/Fire/EMS

Our K9 First Aid training is very thorough from the extra care working dogs need to emergency life threatening situations. A good portion of the training is geared just to working canines. Not only does a veterinarian train you, you also receive a well-stocked field first aid kit for free. Everything in the kit is gone over during the training.

KEY POINTS

- **Free First Aid Kit** - You receive a well-stocked field first aid kit.
- **Trauma Care** - K9s get hurt in the line of duty; we give you information to stabilize them before transport.
- **Canine CPR** - Yes, pets need CPR sometimes learn how to do it correctly. It's different then humans.
- **Preventive Care** - Preventive care for your dog from nails trimming, ear cleaning to paw care.
- **Pet First Aid** - Find out what you can and can and cannot use on your pet for first aid care.
- **Smoke** - Smoke can cause all kinds of breathing issues we will show how you can apply oxygen safely.
- **Hands on course**
