COMBAT READY FIREFIGHTING

"Combat Ready" is the cornerstone philosophy of Traditions Training and a principal philosophy in all of our programs.

This interactive, multi-media based presentation will discuss the presence and effects of complacency in the fire service along with how & why we must combat it. Tips on the readiness of your attitude & equipment will be offered for the engine and truck company, rapid intervention team, & incident commander. Many factors have served to increase complacency in today's firefighters. A complacent attitude is the first step in a tragic calamity of errors that results in a fire extending beyond where it should have been controlled or preventable civilian or firefighter injuries & death.
