BLUE NIMS

Thursday

September 11, 2025

1300-1700

Corewell Health South
Upton Center
1234 Napier
St. Joseph, MI 49085

Instructor:

Jason “Bear” Wilson

Captain, Houston, TX Fire Dept.

REGISTER HERE:

The Blue NIMS course takes the fundamental principles taught by the FEMA National Incident Management System (NIMS) Incident Command System (ICS) and breaks the information down into an everyday practical application environment that is directed at “boots-on-the-ground” law enforcement. In this course, Officers learn by taking the ICS fundamentals and linking them with current practices and best practices in law enforcement and unified response operations.

Jason “Bear” Wilson is a Captain on the HazMat Team at the Houston Fire Department and a Reserve Deputy at the Harris County Sheriff’s Office. Wilson is a 28+ year Public Safety/Incident Management professional with 28 years of Fire/EMS and 9 years of Law Enforcement experience. During Wilson’s career, he spent 15 years as a Logistics Specialist on FEMA/Texas Task Force I Urban Search and Rescue team. In 2006, Wilson received the Firefighter of the Year award for his service during Hurricane Katrina rescue and recovery efforts. He received the Medal of Valor for his service at the World Trade Center after the September 11 terrorist attacks.
